

# ANALICE DE MORAES LEITE

Full-stack software developer focused on building digital, accessible and well-architected digital experiences

## RELEVANT EXPERIENCE

### BOSCH BRAZIL, AUG 2023 - PRESENT

**Senior Digital Solutions Technician** | Present  
**Junior Digital Solutions Technique** | 01/2025 - 01/2026  
**Digital Solutions Apprentice** | 08/2023 - 01/2025

Working as a full-stack developer

- Main activities: Contributed to high-impact innovation projects in global teams. Built Full Stack solutions with Node.js/Express, Java, C#, and Angular, applying clean architecture and best coding practices. Collaborated with product, design, and operations teams to deliver intuitive, user-friendly features. Integrated systems with external APIs, designed and maintained relational databases, conducted code reviews, and automated AI workflows with n8n. Ensured all solutions were maintainable, efficient, and aligned with strategic business objectives..
- Skills: Django, Python, Java, JavaScript, SQL, Spring Boot, Angular, React, Docker, Azure.

### ASAAS FINANCIAL MANAGEMENT

**internal Sales Assistant** | 12/2022 - 08/2023  
**internal Sales Assistant Apprentice** | 10/2021 - 12/2022

Working in Commercial BackOffice

- Main activities: Conducted active client prospecting, identifying opportunities and qualifying leads for the Inside Sales team. Provided direct support to Inside Sales, Business Development, and Expansion teams, ensuring efficiency in commercial processes. Developed conversion strategies and organized internal communication, aligning sales objectives with strategic goals. Analyzed sales and customer data to support decision-making, providing actionable insights. Used tools such as Excel, Word, PowerPoint, and Pipedrive to optimize processes and reports. Interacted with clients directly, ensuring quality in customer service and support..
- Skills: Excel, Word, PowerPoint, Pipedrive, Power BI, SQL.
